This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE present volume is a continuation of the "Bibliotheca Americana," compiled by the late O. A. Roorbach, the fourth volume of which brought the work down to 1861, and was first announced as the fifth volume of that series, but, objections having been made by the son of Mr. Roorbach, the present title of "American Catalogue" has been adopted.

The period covered by the present volume is one of the most eventful in the history of the United States, commencing in war, ending in peace; during which time all communications having been cut off from the Southern States, made it a difficult task to procure the titles of Southern publications. A list of such as could be obtained is given, and will be found at the end of the Appendix.

In collecting the materials for this volume, it was doubted whether it was best to include or omit such war pamphlets as came under notice, but it was finally decided to give them in a collected form, and they are added as a Supplement.

The present volume gives 11,307 Titles, the Appendix excepted.

The compiler returns his grateful thanks for the special favors conferred on him by all from whom he had occasion to solicit information. He intends to spare no expense or labor in making the future issues of the "American Catalogue" all that can be desired by publishers and literary men.

J. K.

NEW YORK, October, 1866.

At the request of some of the publishers, several books published prior to 1861, and omitted in the fourth volume of the "Bibliotheca Americana," are here given.

EXPLANATIONS.

No separate classification of subjects has been made: Authors and Titles have been arranged alphabetically. Law Reports and State Digests will be found under their respective States, except Alabama, which will be found under select cases.

The Supplement contains Pamphlets, Sermons, and Addresses on the Civil War, all arranged in alphabetical order. Many of these Pamphlets were issued anonymously, and no date or place of publication can be given.

It is proposed, however, to give in each part of the American Catalogue, to be issued annually, such other War-Pamphlets as have been issued and not included in this Supplement, until the list is completed; and in the Appendix will be found a list of all the Learned Societies, and other Literary Associations, with their Publications.
